

NOEL PATON AMARAL

ASSISTANT DIRECTOR/MANAGER

INTRODUCTION

Hi there! I'm Noel and I love being involved in music, the arts, environmental or outdoors and animal rehabilitation and care. I have been home educating our 'musical' daughter for the past sixteen years. I am re-entering the work force because she has graduated early and has now entered college as a full time music major. I made a career choice in the 1990's and actually left my highly paid position as Assistant Director in the feature film industry to start my own farm business with my husband. When our daughter came along, my husband (the veterinarian) kept working and I stayed home to home educate her and allow her to study music intensively. I have extensive knowledge of music (traditional, jazz, classic and classical), musicians, contracts, travel agendas, perdiems, and venue bookings. In addition, I maintained a music web page and social media fan page. My true love and passion is music, the arts (especially with kids), animals, and the environment.
