

# CAROLYN TOLLEY

Script Supervisor

IATSE Locals 38 & 161

For over 30 years, I have been a 'go to' script supervisor for directors, producers and seasoned actors seeking a critical eye and a pleasant disposition. I spend extensive time with editors during post to hone my script supervision skills. I use Peter Skaratt's (UK-Asst. Editor "Lord of the Rings") script supervisor's program/ Filemaker Pro and am extremely accurate with my work. I am based in Michigan, [ctolley01@gmail.com](mailto:ctolley01@gmail.com). I am available for work worldwide and look forward to any new challenges.
