SUMMARY

Offline Editor with 12 years' experience working on large scale productions. I'm a creative editor who enjoys the art of storytelling and digging deep into the rushes to leave no stone unturned. I have a strong background in American broadcast television, having worked extensively on all of the Gold Rush Universe shows. I'm confident to take the lead amongst other editors and production staff to ensure story structures and narratives are as strong as can be, as well as a strong set up on all things post-production. I thrive under pressure with a key eye for detail, working on my own or with edit producers and execs from all levels.
