In my early beginnings I had the opportunity to work for local television channel 7 WSVN in Miami FL in the news department as a Camera Operator and Editor.

This experience taught me to move fast and make split second decisions in order to get a shot that always tells the story.

Later I had the opportunity to work in small, medium and big productions in the Grip, lighting and camera department.

It was a wonderful opportunity that allowed me to learn styles, techniques and tricks of the trade from seasoned and highly accomplished feature film and commercial cinematographers with over 30 plus years of experience.

After years of gathering invaluable experience and going through the ranks within the motion picture lighting and camera departments, I've had the opportunity to work as a Cinematographer, Editor and Director in several feature films, commercials, promos, music videos and documentary films.

I want to have the opportunity to tell your story and deliver your vision!

Working principal photography experience with RED, ALEXA, SONY, CANON, PANASONIC Cameras systems and their Postproduction Workflow.

Working Postproduction experience from work flow strategy, logging, editing, color grade, sound design to final delivery with ADOBE PREMIER, ADOBE AFTER EFFECTS, AVID, and DAVINCI RESOLVE STUDIO.
