Ass. Member Society of Camera Operators SOC

Profile

Filmmaker & Editor, a Dutch native, enjoying what he does best!
Delivery of high standard visual content in arts, commercial and editorial fields.

"I believe in the challenge of translating visions into breathtaking visuals.
By thinking differently and working with a great team.
To simply create beautiful still and motion visuals, telling your story."

Coming from a background of more than 25 years of stills photography, he feels right at home as Director of Photography and Camera Operator on set.
Directing does come natural to him as well while already editing in his head, exposing his secret love for Editing: "I love how I can make a story come together with image, music and color.
I do so with skill, care, dedication, punctuality, emotion and energy.....just add water."

Education

Royal Academy of the Arts (BFA degree)
- The Hague, The Netherlands, 1996
